# NUDO® FiberLite™

## Fiberglass Reinforced Plastic

**FiberLite FRP Panels are the ideal solution for new or retrofit construction. They install directly to solid wall surfaces or can be used for drop-in ceilings tiles.**

FiberLite panels are durable, easily maintained, Class A or Class C fire-rated and meet all USDA and FSIS requirements.

## Pre-Laminated

### NuFiber™ and FiberCorr™

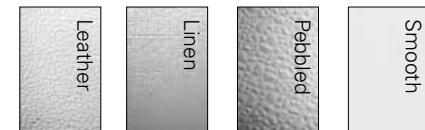

Nudo's fiberglass prelaminated panels offer all of the properties of FRP with the strength and durability or moisture resistance benefits of gypsum, plywood, oriented strand board (OSB) or fluted polypropylene.

These designed performance panels are ideal for new or retrofit construction of walls and ceilings.
