

NUDO[®]

YOUR VISION IS OUR MISSION[™]

Endurex[™] 555

High Impact Hurricane Panel - Like No Other in the Industry

HIGH IMPACT HURRICANE PANEL

Nudo's Endurex™ 555 advances the insulated “impact” or “hurricane” panel from the stone age to the space age. While other competitors rely on a heavy sheet of steel to provide the impact protection, Nudo has engineered a lightweight, super strong composite material that outperforms other products in the market.

- **A much lighter panel for easier handling and installation**
- **Both “inside” and “outside” surfaces provide full impact resistance**
- **Because there is no steel side, panel does not require a “Front or Back” installation guideline**
- **Cuts easily on the job or in the shop - eliminates the negatives of cutting steel**
- **Advanced stabilizers are impervious to moisture**
- **Stabilizers are thinner yet stronger than steel allowing for a higher R-Value in 1” panels, making it a better overall option for this application**
- **Wet glazing not always required**

ENDUREX 555 MEETS MIAMI DADE TESTING

Although lighter and much easier to cut and install, the Endurex 555 panel passed all National “hurricane” testing requirements and meets the Miami Dade Testing Requirements. Testing and certification for Miami-Dade County approvals let architects, specifiers, buyers and Authorities Having Jurisdiction (AHJs) know that products meet the unique requirements for a hurricane prone area. When severe weather strikes, the performance of a product could be what saves homes and lives. Intertek provides the testing and certification services necessary to assure products are protected against all environmental changes.

PHYSICAL CHARACTERISTICS

Standard Sizes: 4' x 8'

Finished panels also offered cut-to-size.

Optional Sizes: 5' x 10'

Minimums may apply.

Not available in all substrates and/or aluminum finishes.

Fire-Rating: Class A

Stabilizer Thickness: .060"

Engineered Reinforced Plastic Composite

Foam Thickness: 0.75" + Closed Cell

Aluminum Thickness: .032", .040", .060"

Some aluminum thicknesses may have minimum quantities and longer lead times.

Aluminum Widths:

48" Available in all colors

60" Available in limited colors. (Call Nudo for options and availability.)

IT'S ABOUT YOU

At Nudo, it's more about you than us. We are customer-focused and that means you can expect the responsiveness, consistency and solutions you need.

Responsiveness

- With over 60 years of experience, we understand the demands and expectations of the building, architecture, transportation and sign industries.
- Our goal is to make things easy for you, and that means a simple ordering process, fast turn times and our own transportation network that allows us to provide industry leading, on-time delivery on a dedicated truck.
- Our customer satisfaction score is the highest in our industry and a true testament to our understanding that you need answers quickly.

Consistency

- With an on-time delivery rate of 99% and a return rate of less than 0.2%, we stand behind our products and stand firm on 100% customer satisfaction - period!
- We are rated as having the best service in the industry by an independent assessment.
- We know trust is earned and can never be taken for granted. From the first order and every subsequent one after that, you can depend on us to deliver the right product at the right price at the right time.

Solutions

- We know that one size doesn't fit all. We address the variables that are inevitably present in any project and use our knowledge to provide you with product options that best suit your needs.
- Couple our wide variety of inner layer options, surface materials, substrates, thicknesses, sizes and colors with our specialized manufacturing equipment and extensive stocking level of raw materials and we can provide custom solutions for just about any panel need.
